„OD STOLA DO POLJA”

Godine 2017., veliki dio poluostrva Luštica bio je zahvaćen šumskim požarima koji su uništili hiljade autohtonih maslina koje su se gnijezdile kroz brda od kojih su mnoge bile stotine godina stare i postale su dio porodica koje su brinule o njima.

Nakon otvaranja hotela Chedi 2018. godine i kao sastavni dio rasta poluostrva, jedan od naših mnogobrojnih ciljeva je da doprinesemo kontinuiranoj održivosti terena koji nazivamo domom.

Mlada stabla koje se sada nalaze ispred Vas, ne služe samo da učine Vaše gastronomsko iskustvo prijatnim; o njemu se brine i naš tim poljoprivrednika koji sazrijeva. Kada bude pravo vrijeme, iz godine u godinu, ova stabla će biti zasađena na tim istim brežuljcima, pomažući u oživljanju bogate istorije i eko sistema našeg poluostrva Luštica.

„FROM TABLE TO FIELD”

In 2017, much of the Luštica Peninsula was devastated by forest fires which destroyed thousands of the indigenous olive trees nestled through the hills, many of which were hundreds of years old and had become a part of the families who cared for them.

Following the opening of The Chedi Hotel in 2018, and as an integral part of the Peninsula's growth, one of our many goals is to contribute to the continued sustainability of the grounds we call home.

The young olive tree which sits in front of you now is not only to help make your dining experience more pleasurable; it is also being cared for by our team of agriculturalists as it matures. When the time is right, year after year, these trees will be planted on those same hills, helping to revive the rich history and ecosystem of our Luštica Peninsula.
