# A tribute to perfection...

Memòries Restaurant offers a creative and innovative dining experience inspired by traditional Catalan cuisine, adopting the Mexican nuances of the Caribbean destination where it is located. The Memòries cuisine is based on local products with a strong influence of the Mediterranean diet, which has resulted in a rich and varied range of recipes that reflect the cultural environment of both cultures, in an environment where every detail can be appreciated.

# Attention to detail.

Memòries Restaurant is aimed at people who seek gastronomic innovation and find pleasure in the attention to detail, which is perceptible during their culinary experience from beginning to end.

In addition to the exquisiteness of the dishes offered, diners can enjoy a wide selection of first class wines from the main wine producing regions of the world, obtaining the ideal complement for the total satisfaction of the most refined palates.

Our goal in each service is to offer the perfect harmony where each and every one of the senses are pleased and the story that each dish and drink tells, allows to connect with emotions and create personal bonds full of meaning.

Memòries has a maximum capacity of 26 people and the cost of the tasting menu is \$85 USD (wine pairing not included).
